Hello Kent / Chris

Yes, it is a complicated business that I realize takes time to digest. Over the next couple of weeks Trisha and I will be in Toronto on vacation – returning to Calgary on June 8th.

This should provide a little more time for you to get a better understanding on the issue, though the simplest way to digest the material would be for me to take you through it.

This Zersetzen persecution has been going on for years. The material you have only summarises the issues up until 2013. There is another report that summarises the remaining issues up to the present.

Indeed just since I filed my letter dated March 11, 2017 with you there have been 9 further incidents, 5 of which are corroborated and are quite serious incidents.

These abuses are a political matter in Canada not just because they are about illegal activities by the security services - indeed those who should be protecting us are persecuting us -- but also because my family and I are being denied that most basic of all human rights: the Rule of Law and a Citizen's right to equal treatment before the law.

There has been a huge and deliberate "failure to protect" us (all Canadian Citizens) and this goes to the very roots of our democracy in Canada.

I very much appreciate your help in this matter and I look forward to hearing from you.

Roderick Russell
